EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Shimokaji on August 3, 2006.

The application has been amended as follows:

Cancel claims 28-30.

Note: In applicant's response to the restriction requirement (4/3/06) claims 28-30 were withdrawn as being directed towards a non-elected invention. Therefore these claims are being canceled via examiner's amendment such that the case can proceed to issue.

The following is an examiner's statement of reasons for allowance: the specific limitations of the independent claims are not anticipated or made obvious over the prior art of record in the examiner's opinion.

'326 to Buonauro et al discloses a pressure foot 20 having a vacuum outlet 26 and an air input 58 for removing debris from the cutting area.

'612 to Martinez et al discloses a drilling end effector having a vacuum attachment 98, a lubrication system 108 and an air blast system 110 to remove debris from the cutting area.

'341 to Zahuranec et al discloses a cutting tool having body 12 that includes opening 143 to permit passage of lubricant into the central cavity 22 where the cutting is being performed. A chip and lubricant reservoir is located at the lower end of the body to collect chips/lubricant as they move from the chip pocket through the cavity 22.

None of these references however disclose the drill nozzle as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jamila O. Williams whose telephone number is 571-272-4431. The examiner can normally be reached on Monday-Friday 6:30am-3:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Monica Carter can be reached on 571-272-3484. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
